

O. S. L. PAYS HIGH DIVIDEND

Dividends amounting to \$4,000,000 were paid by the Oregon Short Line railroad last year to its owner, the Union Pacific railroad company, leaving a balance out of the income of \$469,702.42 according to the annual report made public yesterday.

The company's operating revenues for 1921, according to the report filed with the public utilities commission of Utah yesterday, were \$30,850,000, approximately, which was a decrease of \$3,000,000 from the total revenue received in 1920 by the railroad, irrespective of control. Operating expenses of \$27,500,000 left a revenue from railway operations of \$3,350,000. Taxes of \$3,150,000 were paid.

The railroad has a nonoperating income of nearly \$4,000,000, of which \$1,900,000 is in dividends and stocks it holds, and \$2,500,000 is income from funded securities owned. On the other hand, it pays more than \$5,250,000 in interest on funded debt. The net income of the railroad for 1921 is given as \$4,465,682.60.

More than \$2,000,000 of the taxes paid by the railroad are contributed toward the cause of government in Idaho. Utah's share is \$226,345, and other states draw comparatively small amounts. The federal government collected in 1921 \$442,000.

The Short Line owns 50 per cent control of the Salt Lake Route, the other 50 per cent being purchased during 1921 by the Union Pacific, which, by the way, owns 100 per cent of the stock of the Short Line.

The report shows that for the 2189 miles of road owned the book investment in road and equipment is \$125,695,241.17, or an average of \$57,495.52 a mile. It is claimed that a segregation of investment for the 231.8 miles of line within this state is not available. The Utah mileage divided into 113.48 miles of main track and 118.32 miles of branch lines. The Idaho mileage is 413 of main line and 984 of branch line.

This is probably the only railroad re-

Mountain Slips and Twists Rails, Tying Up Trains

SALT LAKE, June 7.—Recurrence of land slides about two miles west of Soldier Summit, Utah, on the lines of the Denver & Rio Grande Western railroad, is declared to be one of the strangest freaks known to geological science, and is causing delays today in the traffic on that road. A mountain is reported to be slipping, resulting in an upheaval of the tracks and throwing the rails out of line in places the tracks are reported to have been raised four feet, twisting the steel rails and making the roadbed impassable.

Traffic was resumed over the line this afternoon after two steam shovels had been working for several hours. Due to the delays Shriners' specials on their way to the coast will arrive here about 7 o'clock tonight. It was reported. They were scheduled to reach here at 11:25 this morning.

Dispatches received in Salt Lake said illustrious Potentate of the Syrian temple, Cincinnati, Ohio, was seriously ill on one of the Shriners' trains which has been held up.

porting to the public utilities commission so far to fail to furnish this information. However, in another part of the report 7,287 tons of revenue freight are accredited to Utah out of a total for the company of 7,514,835 tons of revenue freight as a whole in 1921, was \$27,700,000 of which \$6,888,000 is accredited to Utah business. The total operating revenue accredited to Utah is \$8,375,000 and operating expenses \$4,710,000.

The average ton mile of freight carried in Utah produced, according to the report slightly over 8 cents in revenue, while for the company, as a whole, it produced only 1.32 cents. The Utah passenger paid an average of 3.57 cents a mile, and on the line, as a whole, 3.48 cents.

The Short Line had an average of 3533 employees in 1921, paying them \$16,343,216 during the year.

SHRINERS SEE OGDEN CANYON

Shriners of the Altas temple, Washington, en route to San Francisco to attend the convention there from June 13 to 16 inclusive, arrived in Ogden, on a special train this morning and were met at the Union station by P. F. Kirkendall, chairman of the Ogden Shrine club and the club members.

They were taken for a trip through Ogden canyon. More than 50 automobiles were at the station to carry the visitors through the canyon. Special trains carrying Shriners to the convention are scheduled to arrive here until Saturday. Twenty-three trains will pass through the city.

VISIT IN SALT LAKE

SALT LAKE, June 7.—Two caravans of Shriners, Syrian Temple of Cincinnati, Ohio, and Altas Temple, Washington, are due to arrive in Salt Lake late today, en route to San Francisco and the annual Shrine convention. Tuesday nobles of Rajah temple, Reading, Pa., and Zim Zim temple, Erie, Pa., were visitors here.

PLENTY ROOM

SAN FRANCISCO, Cal., June 7.—Hundreds of caravans made up of members of the Ancient Arabic Order, Nobles of the Mystic Shrine, now headed westward with San Francisco as their mecca and scene of the 1922 national convention, will not be required to pitch their tents by the Golden Gate.

Definite assurance is that San Francisco will provide ample housing facilities for delegates and visitors to the convention, were given today when the shrine housing committee announced that accommodations listed in private homes insure quarters for the overflow crowds from downtown hotels.

The assurances of the housing committee followed reports that guests who had not already made reservations could not be accommodated.

Next to honey, and almost as ancient, figs and dates are the most na-

WESTERN RAIL MEETING CALLED

Consolidation of Southern and Central Pacific Will Be Discussed

SAN FRANCISCO, June 7.—The California railroad commission Tuesday invited the public utilities commissions of Oregon, Washington, Nevada, Utah, Arizona, New Mexico and Texas to a conference in San Francisco June 15, to discuss possible joint action by those states with reference to the separation of the Southern Pacific and Central Pacific railroads, and the Central Pacific dissolution case.

TO HASTEN ACTION.
It is expected that the conference will consider whether an appeal should be made to the interstate commerce commission urging the latter to exercise the powers conferred upon it by the transportation act of 1920, for the consolidation of regional railroad systems. It is pointed out that the interstate commerce commission already has made a preliminary study looking to the grouping of the various railroad systems, and if consolidation should be recommended by the conference, the effect would be merely to hasten consideration of the unifying system of the western carriers.

PROVISIONS CITED.
The California commission points out that the transportation act provides that the interstate commerce commission shall adopt a plan for the consolidation of the railway properties of the United States into a limited number of systems and that the states affected shall be parties to such consolidation proceedings. Pending the adoption of a complete plan of consolidation by the interstate commerce commission, the railroads themselves, it is provided, may consolidate their properties and authorized consolidation is approved by the interstate commerce commission and is in harmony with the commission's own plan. The law, the commission continues, provides that consolidation so approved and authorized shall be relieved from the operation of the Sherman act and other anti-trust laws.

'AMERICAN PLAN' PROBE INVITED

San Francisco Dealers Won't Sell Material to Union Builders

SAN FRANCISCO, June 7.—Full investigation of all its activities would be welcomed by the Industrial association of San Francisco, according to a statement by William J. Kuhl, general counsel of the association, in answer to the complaint made by Frank Morrison, secretary of the American Federation of Labor. Morrison complained to Attorney General Daugherty that certain building material dealers in San Francisco refused to sell to firms employing union labor.

The complaint made to Daugherty by Morrison was the outgrowth of disputes which arose after the establishment of the so-called American or open shop plan in San Francisco. The Industrial association, at the plan's inception, stated that its purpose was to permit the employment of non-union workers with union men.

STRIKE FORMS CLIMAX
Later the building trades' officials maintained that building material dealers refused to sell contractors goods unless they employed non-union workers with union workers. They charged that the dealers even insisted that only non-union men be employed as a prior stipulation to the sale of materials.

The situation reached a climax when a dozen union plumbers on a school building contract went on strike in protest against the American plan. The contractor declared that unless he adopted the plan he could not get materials to finish the building.

John T. Williams, United States attorney, conferred with Matthew Brady, district attorney, and the latter was understood to have laid before Williams the results of an investigation of complaints made several months before. Williams' investigation was said to have been prompted by a request from Daugherty and his findings were forwarded to Washington. Eleven San Francisco business firms, including some named by Morrison in his complaint, were barred from participating in city building contracts by the San Francisco board of public works for alleged discriminatory tactics, on May 15.

WHO THEY'LL SELL TO
W. H. George, chairman of Industrial relations committee of the San Francisco Builders' exchange, said: "The San Francisco Builders' exchange will not supply material to contractors who insist on the employment of nothing but union labor. The San Francisco Builders' exchange does not discriminate directly against union labor by refusing to sell materials to contractors employing union labor, but it is within its rights to discipline those contractors who do not favor the open shop."

OGDEN BOY PASSES WEST POINT TESTS

Horace Quinn of Ogden, an employee of the Utah Power & Light company, who resides at 335 Twenty-eighth street, has successfully passed the entrance examination for West Point military academy and may enter the institution July 1, according to Washington dispatches received here today. Clerin R. Smith, of Casper, Wyo., has also passed the tests, it was said.

AND THE RAINY DAY

If you have trouble in putting aside as much money as you would like to, or as much as you think you ought to lay by for a nest egg, the rainy day or case in your old age, if your capital doesn't steadily increase from month to month, but sometimes is less than the month before; if you can't seem to get ahead of the game, if whenever you DO get a little saved up, something always comes up that wipes it out and you have to start it all over again, then—

Let us put you on the way to certain saving.
It's an idea that's a winner. It's been tried and tested, weighed and not found wanting. Hundreds of folks, men and women, many of them right here in this town, swear by it. IT IS PUTTING DOLLARS IN THEIR POCKETS over and above just what they save. It is plugging up a sure and very handsome nest egg for them.

It fills the needs of the man or the woman who has to hustle for every dollar earned—who earnestly looks for better things, a broader, brighter future. Ten to one, you have been waiting and hoping and wishing for an opportunity like this. Stop in and see us today. Let us explain this plan in detail. If you can't come today, don't wait—clip out and mail in this coupon today. Don't put it off. One today is worth two tomorrows. It is what you SAVE that counts, not what you EARN.

Send in this coupon—it will bring you an illustrated booklet and tell you how to buy this stock for \$10 a month.

Utah Power & Light Co. (Without Obligation)
Kearns Bldg., Salt Lake City, Utah.
Please send me booklet, "The Story of an Opportunity at Home," containing (1) More information about your preferred stock (2) Details of Easy Payment Plan (3) How to Judge an Investment.

Another Treat for Want Ad Patrons

FREE BLUE PINE EXTRACTS Lemon and Vanilla

These extracts are of the same high quality as the other famous Blue Pine products. Made of the finest materials it is possible to obtain.

To every person who inserts a cash want ad in the Standard-Examiner Friday or Saturday of this week—a bottle of high-grade flavoring extract will be presented absolutely free.

Use Want Ads They Pay Big

A Woman's Memorial to the War Dead

After the unveiling of the Washington Heights Memorial Statue which she designed, Mrs. Harry Payne Whitney (inset) was sworn in as an honorary member of the American Legion in the Frederick H. Meyer Post, New York City.

NEW NAVAL BASES IN WEST REFUSED

WASHINGTON, June 7.—Work on all naval vessels permitted the United States under the arms conference treaty would proceed at about the present rate, with no reduction of forces at any of the private or government yards under the revised naval appropriations bills as completed today by the senate appropriations subcommittee.

Requests of the navy department for funds to begin work on three new Pacific coast naval bases were denied by the subcommittee, which excluded proposals for a new fleet base at Alameda, Cal., a new torpedo base at San Pedro, Cal., and a new aviation base at Sandpoint, Wash.

IDAHO ELKS MAY FORM ASSOCIATION

POCATELLO, Idaho, June 7.—A large delegation of local Elks is signing up to attend the reunion at Boise on June 14 and 15, at which time final touches will be given to organizing the Idaho Elks' State association, which was largely inspired by Pocatello lodge No. 674. The local Elks are also undertaking the project of conducting a Fourth of July celebration, at which time all neighboring towns not celebrating have indicated a willingness to participate. It is probable that Senator W. E. Borah will be the principal orator.

GOVERNMENT BREAKS WITH HUGO STINNES

BERLIN, June 7.—(By the Associated Press)—Hugo Stinnes' Deutscher Allgemeine Zeitung has ceased to be the government's official organ. It was announced, the arrangement hitherto existing having been mutually abrogated.

The break between the government and the industrial and shipping magnate, which has been imminent for some time, is now definite. The government considered that Herr Stinnes on account of his industrial relationships was not always an enthusiastic supporter of its policies toward big business. Herr Stinnes, on the other hand, felt that the official connection for a long time had restricted his expression of views and had been an editorial incubator.

OAKLAND PAIR TO BROADCAST WEDDING

OAKLAND, Calif., June 7.—Here comes the radio bride.
Next Saturday evening Miss Vivian Kild and Leland H. Hodgson of this city plan to broadcast their wedding ceremony to many of their friends and probably to numerous strangers. Instead of walking in dignified misery, in stately self-consciousness, down a church aisle, the couple will stand at ease before the big broadcasting instrument at Rockridge. The wedding march and every detail of the event will be recorded for the radio phones.
